

## **SUPPORT TO GOVERNMENT FACILITIES, ENGINEERING, AND CONSTRUCTION**

The following, along with the approximations for craft man-hours stated in PWS Paragraph 1.4.M, are provided to give information the offeror may use for estimating craft and incidental engineering support. The offeror should use this information and the offeror's experience for similar work to determine the effort that would be expended for similar support.

Designs by cost range:	Hours:
Less than \$10,000	Approximately 200 annually (Note that some of these are design memorandums that do not require COSS review.)
\$10,000 to \$50,000	Approximately 75 annually
\$50,000 to \$100,000	Approximately 20 annually
\$100,000 to \$200,000	Approximately 10 annually
\$200,000 to \$500,000	Approximately 6 annually
\$500,000 to \$2,500,000	6 to 7 annually
\$2,500,000 to \$25,000,000	1 to 2 annually
Special engineering studies (some of which require COSS participation) - Approximately 15
